TRUSTEE NOTES

FAMILY FUN DAY

The Painesville Township Trustees will host the Township's first community-wide event since our Bicentennial celebration in 2000. We will host a Family Fun Day on Saturday August 23, from 11 am to 6 pm. This community celebration will be held at the Lake County History and Heritage Center. Please see inside the newsletter for details. Also see our Facebook page for up to date information. Come out and join your neighbors for a great day of family activities!

RIVERSIDE TRAFFIC PATTERNS CHANGE

The Riverside Local School District is changing the traffic pattern at the High School campus to provide better traffic flow for student drop off and pick up. One of the major investments that the District is making is to build an additional driveway on the east side of the campus. In addition, the campus will have new traffic patterns to enter, drop off and pick up students, and to exit the property. The student parking lot will also be paved and painted with parking lines to increase the number of parking spots available. Please see the Riverside Local School District web site for detailed information. <http://www.painesville-township.k12.oh.us>.

Parents are encouraged to use the new access to the campus and not park in the neighborhood streets when picking their students up. Please be aware of these changes, and have patience the first couple of weeks while we get settled into the new traffic flow.

OHIO ATV LAWS

The Ohio Revised Code specifies laws that govern the operation of snowmobiles, off-highway motorcycles, ATV's and all-purpose vehicles. Below are a few of the laws that address these vehicle operations:

- No riding on limited access highways or freeways or the right-of-ways thereof, except for emergency travel.
- Not on any private property, or in any nursery or planting area, without the permission of the owner

or other person having the right to possession of the property.

- Not on any land or waters controlled by the state, except at those locations where a sign has been posted permitting such operations.
- Not on the track or right-of-way of any operating railroad.
- Not during the time from sunset to sunrise, unless displaying lights as required by law.

Please remember that just because a multi-purpose vehicle bears the proper identification and current tags, it does not mean that it is street legal. If you have additional questions, please contact the Lake County Sheriff's Department.

A NEW TOWNSHIP MAGAZINE

This fall we will publish a magazine that will feature the residents, businesses, and amenities of Painesville Township. The magazine is a one-time publication, and will be mailed to all residents of the Township. There is no cost for this magazine for either residents or the Township. Look for it in your mailbox this fall.

PAINESVILLE TOWNSHIP COMPREHENSIVE PLAN

It is generally recommended by planning and zoning professionals that townships in Ohio attempt to update their Comprehensive Plans every 5 to 7 years. Our current Comprehensive Plan was published in 2007. Traditionally the Board of Trustees will appoint members of our residential and business community to serve on a committee which will work side by side with the Painesville Township Board of Trustees, the Painesville Township Zoning Commission, the Painesville Township Zoning Inspector and the Lake County Department of Planning & Community Development in assembling an updated Comprehensive Plan. All persons who have a sincere interest in serving on a Comprehensive Plan Committee are asked to place on file with the Township Administrator a letter of interest. The Board of Trustees may consider forming a Committee in the fall of 2014 with a target publication of an updated Comprehensive Plan by mid-2015 at the latest.

TRUSTEE NOTES

cont'd...

SURFACE WATER IMPROVEMENT FUND GRANT

Painesville Township has been awarded a grant from the Ohio EPA to modify and expand the parking lot at the Hardy Road Fire Station. This grant, obtained in cooperation with the Chagrin River Watershed Partners, Inc., will enable us to add additional parking using a permeable pavement surface that will improve stormwater treatment. The additional parking is needed for the many training meetings the fire department hosts, and for community events at the fire station such as our annual Holiday Party in December.

RECYCLING OPTION

Buckeye Industries, located at 402 N. Lake St. in Madison accepts **aluminum, tin, plastic, cardboard, and paper**. Paper for shredding can be dropped off between 8:30 am and 4:00 pm during the week. Buckeye Industries is a workshop for developmentally disabled adults. Feel free to call Deb White at 440-428-0042 for more information.

FIRE DEPARTMENT

The Painesville Township Fire Department has been awarded a custom Mobile Command Center (MCC). The award came through the Lake County Emergency Management Agency, using a Homeland Security Radiological Responses Grant. The Mobile Command Center is part of our county-wide shared services program. Painesville Township owns and houses the vehicle. The Mobile Command Center is available to be used by all of the communities in Lake County. The unit has two command areas in it that enable the crew to manage multiple tasks. We are in the process of outfitting the vehicle with equipment purchased with grant monies. The MCC will have mobile cameras, computers, multi-band radios and other electronics as needed to complete its mission. Since we are a nuclear county we are recognized as having unique concerns. Within the unit, we have 4 radiological portal monitors; they look like walk through metal detectors and are used to detect radio-activity. The Perry Nuclear Power plant is not the only radiological concern we have, as a dirty bomb with radio-active material within it, when exploded could contaminate people and the area. Lake County might not be too concerned with this sort of attack but the City of Cleveland is, and we are part of a response plan to aid in the event of such an attack.

The MCC is not just a fire department asset. You may also see the unit at major public events being used by law enforcement agencies as a mobile command post. The Health District might use it at vaccination sites.

The Mobile Command Center is based at the Hardy Road Fire Station. Feel free to stop by and see it.

SERVICE DEPARTMENT

The Trustees would like to congratulate our Service Director, Bill Thompson on celebrating 35 years of dedicated service to Painesville Township! Many of us know Bill for his positive, can-do approach to helping residents. Bill's vast knowledge of our Township, and the many challenges we have for maintaining our roads and infrastructure is a great asset.

The brush, leaf and yard waste drop off area is open on Wednesdays from 7:30 am until 3:00 pm and on Saturdays from 10:00 am until 2:00 pm.

During the month of November, the drop off area will be open Monday through Friday from 7:30 am until 3:00 pm and on Saturdays from 10:00 am until 2:00 pm.

There will be two curbside leaf collections this fall. The first will be on **Saturday November 8th** and the second one will be on **Saturday December 6th**. These collections are for bagged leaves only, and brush will not be picked up. Leaves must be placed in recyclable bags. Loose piles and plastic bags will not be accepted.

In early June, State Auditor David Yost unveiled the Shared Services Program for Lake County at a short ceremony in Mentor. Painesville Township's Service Department is part of this program that will allow and encourage both the sharing of services and purchases among the Cities, Villages and Township Service Departments in Lake County.

We are pleased to report that Painesville Township has quickly taken advantage of this program. We have purchased a Vertical Trench Shoring safety system to be used during storm sewer repair and installation projects. We partnered with Concord Township, Madison Township, Perry Township and Fairport Harbor to purchase this piece of safety equipment.

During the past two winter snowplowing seasons, we have also worked with Concord Township and Perry Township on sharing snowplowing routes on roads that pass through the adjoining Townships.
